

Map showing offsets on  
South Water Street  
and the adjacent streets  
Scale 40 feet per inch.  
also offsets on  
South Main Street  
taken May 1896.

Note The red offsets on S. Main St. correspond with widening of S.M. St. made Mar. 13, 1891. See Council Rec. 8 p. 44 also p. 135 for plat see City Clerk's files also 3156. The red offsets on the east side of S. Water St. were taken after the construction of the sewer from measurements taken earlier. They are practically the same as at the time of the original survey.

Original survey was taken by J. C. H. Brown
