

Map showing lines of
Dodge and Coddling Streets,
Scale 40 feet per inch.

Note, The lines of Dodge st. south of the angle are fixed by the layout of 1876 See 81³⁷ from which the red offsets are copied. North of the angle the lines agree with lay out of 1857 See notes in red ink referring to 94³¹. The lines of Coddling st. (established in 1852) are from 81²⁷ additional information as to former location of buildings being taken from maps of Cranston and High sts 62¹⁹ and 62⁹⁻¹⁰ The line of High st. by the maps of Dodge and Coddling sts (94³¹ & 81²⁷) differs from that fixed by 62⁹⁻¹⁰ which is here shown. Allowance for this difference is made in turning the angle from High st, and measuring to the angle in Coddling st as indicated.
